

Steps:

Create a Kubernetes cluster

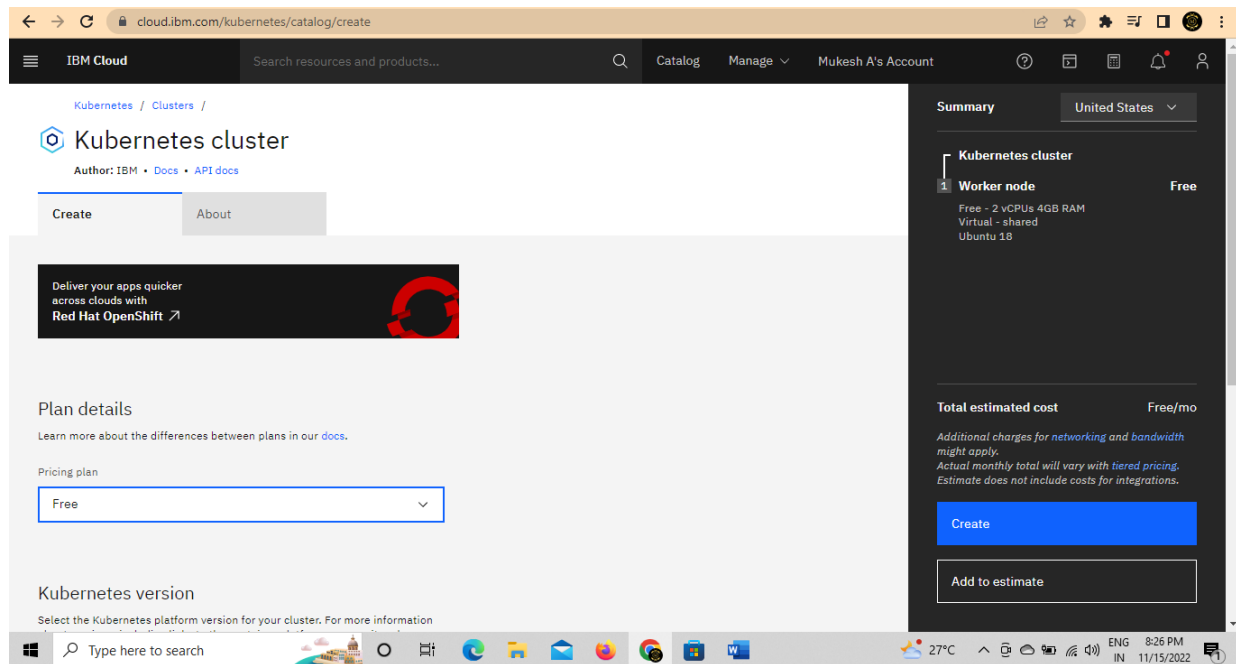

- Sign in to your [IBM Cloud Dashboard](#).
- Open **IBM Kubernetes Service**.

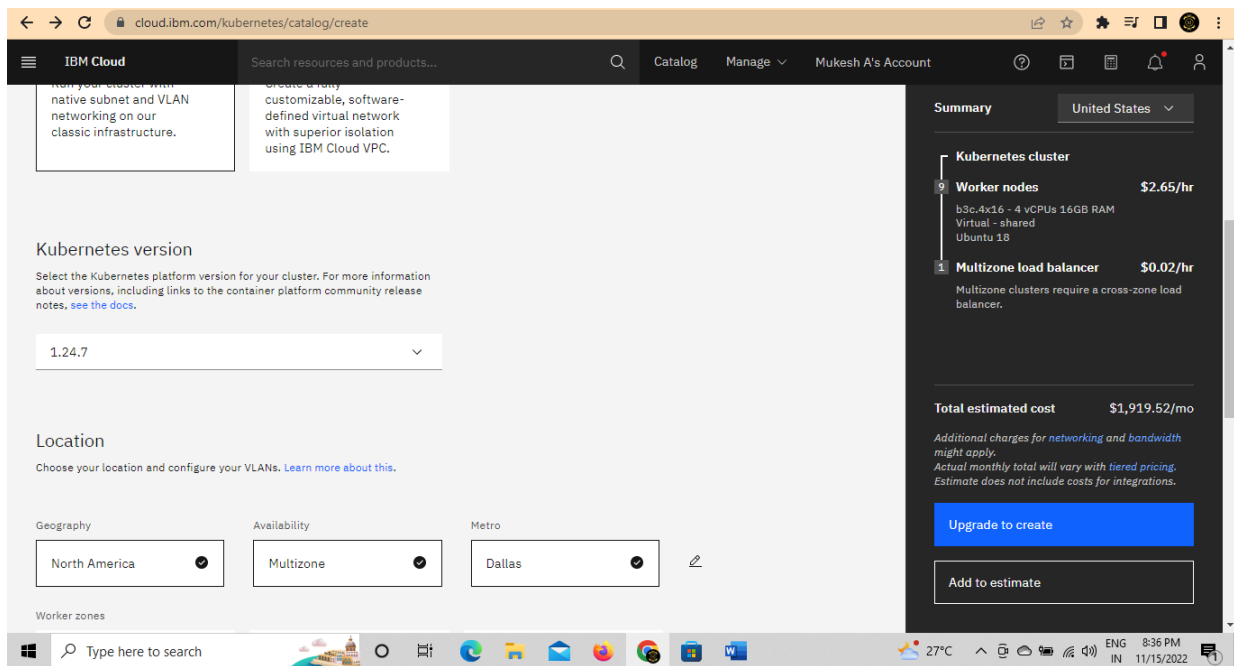

- Click **Create Cluster**.

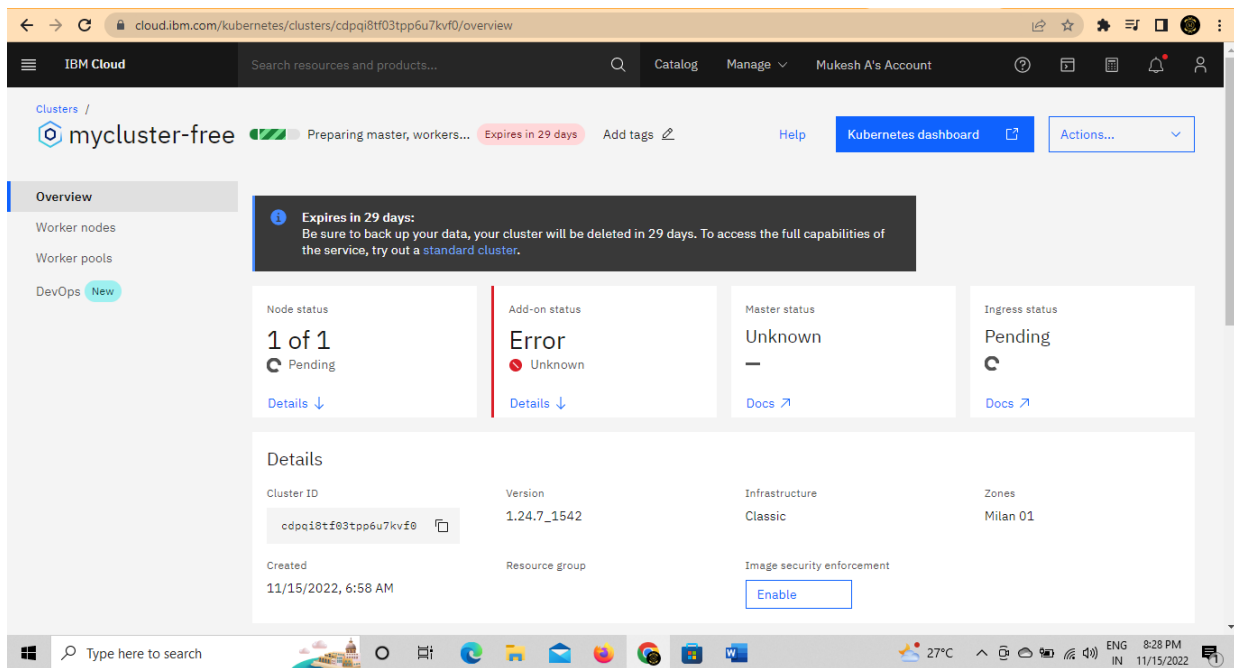

- Select the Region where you want to deploy the cluster, type in a name for your cluster, then click Create Cluster.
- Select the appropriate cluster type depending on your account.
- It takes some time for the cluster to get ready (around 30 minutes).

- Once the cluster is ready, click on your cluster's name and you will be redirected to a new page with information about your cluster and worker node.

- Click on the Worker Nodes tab to note the cluster's Public IP.
